“Working with Marcy has been a game-changer.... Marcy is knowledgeable and empathetic but most importantly she knows how to advocate for children while keeping a productive relationship with school administration. More than once, we’ve received unsolicited feedback from special education teams that Marcy’s approach is respectful and constructive....in many situations Marcy has successfully negotiated far more services and supports for our child than the school was originally prepared to give. I recommend working with Marcy with no qualifications or disclaimers. She’s a true asset.”

Bill Peever has over 15 years of experience in field of education and graduated Cum Laude from law school. Bill genuinely cares for his clients, understanding that at the end of the meeting these parents still must be able to look into the eyes of their child’s teacher at pick up or a teacher conference, to this end he always attempts to collaborate with the school prior to resorting to more aggressive tactics. This collaborative and non-adversarial approach to the process has garnered him the trust and respect of both his clients as well as the school districts that he has worked with.

Parents hire me to insure their child receives the best possible education under federal and state laws. Too often, students struggle academically, socially or emotionally. The result leaves parents frustrated and their children lost in the shuffle. As an advocate, I know the laws governing special education and work with parents, children and school officials to insure that their child receives the education that will meet their unique learning needs and that they are entitled.
